

RDS Advantage Tutorial Spiritual Gifts

Spiritual Gifts

Churches use spiritual gifts discernment of its members to enable them to use their gifts in ministry, RDS Advantage provides ways to track, report and use this information.

Spiritual Gift Examples:

Administration	Knowledge
Artistry	Leadership
Discernment	Mercy
Evangelism	Music
Exhortation	Pastoring
Faith	Service
Giving	Skilled Crafts
Hospitality	Teaching
Intercession	Writing

You can track an unlimited number of your choosing.

Spiritual Gifts Questionnaires:

An example of a questionnaire to help identify spiritual gifts can be found at
<http://www.churchgrowth.org/analysis/intro.html>
<http://www.kodachrome.org/spiritgift/>
<http://archives.umc.org/interior.asp?ptid=1&mid=2268>
among others that can be found on the Internet.

Activity Records:

Activity Records is a powerful tool to track each person's gifts. Activities can track every spiritual gift you want to use. Each individual is enrolled in one or more 'Spiritual Gifts Activities.'

For example, the Activity Type you set up might be "Ministry." The Activity Sub-type is established for each Spiritual Gift that is a type of ministry. For each Spiritual Gift you can set up an Activity (one or more), and enroll those in the activity for which they have those certain gifts.

All the reporting capabilities of the Activities system are available to find, list and communicate with individuals based upon their gifts. For example, to list people to serve in a teaching capacity, use the Activity Involvement by Activity report, AC303R, to print a list of those who have both 'knowledge' and 'teaching' gifts. You can select on the basis of up to eighteen different gifts for one or more individuals. You can communicate with people based upon their gifts by e-mail, VOIP phone messaging, letters, postcards, and more.

Address postcards, print address labels, print name tags and reports for those selected. You can print the information to a file, or Export in different file formats such as ASCII, comma delimited, tab, Microsoft Word and Microsoft Database (MDB) formats in order to export into other third party applications.

Contact RDS Advantage support for other ideas about the use of spiritual gifts administration.

Report Example: (many other reports can be made in addition to those illustrated)
